For : ACCESSORY SYSTEM FOR VEHICLE  
Page : 27

**Amendments to the Abstract:**

Please amend the Abstract on page 81 of the application as follows:

An accessory system for a vehicle includes an interior rearview mirror assembly ~~(10)~~ and a display screen ~~(20)~~ that is extendable and retractable relative to a casing. The display screen is slidably mounted at the casing and slidable in a direction generally parallel to a length axis of the reflective element between a non-use position, where the video display screen is positioned substantially within the casing, and a use position, where the video display screen is substantially extended from a side of the casing for viewing. The display screen may be automatically extended in response to an activating event. The accessory system may include an accessory module ~~(50)~~, which may comprise multiple sub-modules that may be selected to provide the desired accessory content to the accessory module.

A new Abstract sheet is attached.
